

# Tamremariam Belete

## About me

I am motivated by a deep love of programming and a strong interest in network security, which drives my research of the ever changing tech ecosystem. Exploring the complexities of various programming languages, I find satisfaction in creating elegant solutions and viewing problems as chances for advancement. I am eager to apply my programming talents and contribute to the ever-changing profession, thus I am dedicated to constant learning, innovation, and the pursuit of excellence in both programming and network security.

## EDUCATION

2019 - 2024

**HARAMAYA UNIVERSITY**

- Bachelor of Science in Information Systems
- CGPA 3.39

## SKILLS

- Mobile App Development
- Website Development
- Agile and Waterfall
- Networking
- Command-line
- Version Control with Git
- Problem-solving
- Teamwork

## LANGUAGES

- English
- Amharic

## Experience

2022 - 2024

### Mobile app developer

I have experience in number of projects. One such project, "Ethiopian Famous People," involved the development of a bilingual (Amharic and English) biographical app, showcasing figures of Ethiopia. In another project, "Meheja Transport," I utilized my expertise in Git for seamless version control and integrated RESTful APIs to enable online payment functionality. This app boasts advanced features including face detection camera, document scanning, and price estimation and calculation. Leveraging Google Maps and OpenStreetMap, I optimized routes and calculated distances, while ensuring real-time data synchronization through Firebase. Additionally, I expanded my skills by deploying the "Meheja transport Admin" Flutter web app to Firebase, further enhancing my proficiency in web application deployment.

2023

Debre Berhan University's ICT Directorate

### Internships

During my internship, I delved into network simulation using Cisco Packet Tracer, refining my understanding of network architecture and troubleshooting. Concurrently, I embarked on website development, honing my skills in frontend and backend technologies. Throughout this journey, I augmented my proficiency in graphic design, enhancing the visual appeal and usability of websites. This experience exemplifies my versatility and eagerness to explore new domains in the ever-evolving landscape of technology.
